TO START SIMPLE

radiant® WITH Wi-Fi

The smartest way to take control of your lights.

Connecting directly to your home Wi-Fi for fast and easy setup in one or a few rooms, the radiant® with Wi-Fi solution replaces existing switches and outlets in minutes to offer control of your lights and power from any smart device, anywhere.

JUST ASK.

Easily connect your radiant with Wi-Fi products to **Amazon Alexa** or **Google Home**. Then taking control is as simple as: "Alexa, turn on the lights."

Create scenes, set schedules and control lights with the Legrand Smart Lights, Wi-Fi app.

TO TAKE CONTROL OF THE WHOLE HOME

## radiant® WITH Netatmo

adorne® WITH Netatmo

The smartest way to take control of lights and power, optimized for an ultra-reliable whole home experience.

Leveraging leading smart home technology to establish a robust and dedicated mesh network, both adorne® with Netatmo and radiant® with Netatmo are smart lighting solutions with unprecedented range and reliability. Start with a Smart Gateway, then watch the network get stronger with every switch or outlet you add. All for dependable performance throughout an entire home — even in areas where Wi-Fi signals typically struggle.

Plus, with a variety of gateways, switches, dimmers and outlets available – including battery-powered, wireless switches for easily adding 3-way control anywhere you want it – these solutions can be custom fit to your needs. Then simply connect with **Amazon Alexa**, **Google Home** or **Apple HomeKit**, or integrate with home automation systems, for next-level control.

MORE CONTROL, LESS WASTE.

The adorne and radiant with Netatmo solutions provide incredible visibility to a home's energy usage through the app, helping reduce energy cost and waste. Monitor, manage, and more, with Netatmo.
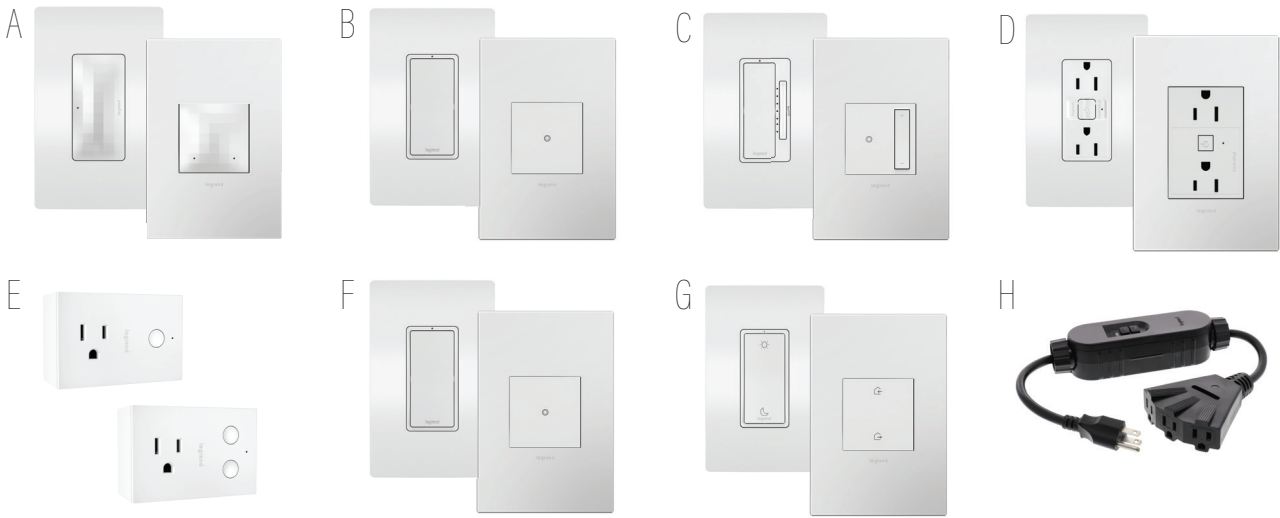

Manage lights and power, from anywhere, with the Legrand Home + Control app.
